

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, weak bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Lee Bascom Dead.

Word was received here Monday morning that Lee Bascom of near Odessa died very suddenly Sunday on his way home from church. Mr. Bascom was a bachelor and was about forty-seven years old.

William Wernwag arrived Saturday to visit his mother.

Rev. and Mrs. T. M. Cobb returned Sunday morning from a visit in Ottumville, Mo.

Mrs. M. L. Belt of Higginsville, who has been visiting her daughter, Mrs. Chas. Hoefler, returned Saturday to her home.

Forced to Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calumet, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup, all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at Crenshaw & Young's.

Mrs. C. T. Ryland returned Friday from a few days' visit in Kansas City.

F. T. Bates went to Kansas City Saturday to attend the stock show.

Prof. B. M. Little went to Kansas City Saturday to spend the day.

Reaching the Top.

In any calling of life, demands pence, who has been visiting a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest Health Builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from Kidney Trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c. at Crenshaw & Young's.

Mr. and Mrs. George Colburn returned Saturday to Freeman, Missouri, after a few days' visit here with relatives.

W. B. Waddell returned Saturday night from a week's stay in Kansas City.

Ed and John Webb of Higginsville spent Sunday in Lexington.

Miss Mary Aull left Tuesday for Los Angeles, California, to resume her musical studies under Prof. Ralph Wiley.

Miss Delia Trail returned to Kansas City Tuesday after a few days' visit here with relatives.

Big Free Offer.

The Twice-a-Week Republic, of St. Louis, Mo., which is conceded by most everyone to be the biggest and best metropolitan semi-weekly in the United States, offers everybody an opportunity of securing a three-year subscription absolutely free. If you will write a post card addressed to The St. Louis Republic, and tell them you want to know how to get the paper free, they will write and give you full particulars.

Mrs. E. S. Moorman of Kansas City arrived Monday evening for a brief visit with relatives.

Mrs. G. W. Ayers went to Kansas City Tuesday for a few days' visit.

Luther W. Crenshaw returned Monday to St. Louis, having been called here by the death of his father.

F. P. Grieser and John McDermot went to St. Louis Monday to attend a meeting of the Grand Lodge of the Knights of Pythias.

Prof. J. C. Shelton went to Sedalia Monday on business.

Jas. H. Catron arrived Monday night from Nebraska to visit relatives.

Mr. and Mrs. Henry Bartling and Mr. and Mrs. Kroemer left Tuesday for a visit in Orange, California.

Refrigerators

We are headquarters for Refrigerators carrying the "BOHN SYPHON" "MCCRAY" "MINNESOTA" "ODORLESS"

And Other Makes We have them white enameled and Genuine Porcelain Lined.

We also have the Sterling line of Carpet Sweepers

Winkler FURNITURE CO.

John Seiter spent Sunday in Kansas City.

Mrs. J. V. A. Carter and Miss Ella Carter returned Monday from a trip to Topeka, Kansas.

Mrs. D. H. Carnes left Tuesday morning for Albuquerque, N. M., after an extended visit here with her sister, Mrs. William Aull.

Another Wonderful Discovery.

Electricity, telephones, airships and all the wonderful inventions of this scientific age seemed impossible a few years ago. But it seems there is nothing so impossible but what some scientist will discover the means of accomplishment. Prof. Emerson has now discovered a preparation which will really grow hair. Low people are amazed and astounded by Emerson's new discovery for the hair. Emerson said that one bottle of his new discovery would grow a full head of hair to its natural color. The people did not believe him. It was too much to expect and too good to be true. They had tried all the highly advertised hair restorers and had always been disappointed and they could not believe one bottle would really grow a full head of hair. But now comes the most startling part of all—for Emerson proved it—yes, absolutely proved it. What do you think he did? He made the bold and remarkable statement that he would give five dollars to any person who used one bottle of his new discovery and failed to secure a new and satisfactory growth of hair. The people were astounded by the unheard of offer, but they knew that Emerson was financially responsible and would do as he agreed if it cost him his fortune. Thousands bought bottles of his new discovery, though most of them had little faith and expected to be paid five dollars for using the bottle of new discovery. Out of the first thousand bottles sold only seven claimed they were not entirely satisfied, and they immediately received the five dollars without question. The rest of them were overjoyed to find that Emerson's new Discovery had really promoted a new and healthy growth of hair. What is this remarkable new discovery? Emerson won't tell, and chemists have tried to analyze it and have failed to find out what it is. Emerson asks us to publish this same offer to the readers of this paper. He states that with every bottle of his new discovery, the price of which is \$1, he will send a written agreement to pay you five dollars if you are not entirely satisfied with the result which is invariably a new head of healthy, vigorous hair. The new discovery is not sticky, oily or greasy and is very pleasant to use. This is the most remarkable offer ever made by a responsible firm, such as the Emerson Chemical Co., which is backing Emerson in his offer. Just send a \$1 bill (money order not necessary) to the Emerson Chemical Co., Scottsbluff, Nebraska, and secure a bottle of the new Discovery and the agreement to pay you \$5 or grow a full head of hair with only one bottle of this new discovery.

CASTORIA

For Infants and Children. The Kind You Have Always Bought Bears the Signature of *Wm. D. Mitchell*

Rev. and Mrs. R. W. Gentry and little son left Tuesday for their home in Chicago after a short visit with relatives in this city.

E. M. Taubman spent Tuesday in Aulville on business.

Robert Simms and little son left Tuesday morning for a trip through Oklahoma, Arkansas and Texas.

Mesdames E. J. and J. C. McGrew, Jr., went to Kansas City Tuesday for a few days' visit.

Sandford, Sellers, Jr., who was taken ill with appendicitis Wednesday, was operated upon in the Presbyterian hospital Friday evening. The operation was entirely successful and an early recovery is expected.

SPRAYING SAVES MILLIONS

YIELD OF APPLE AND PEACH ORCHARDS INCREASED BY IT.

Great Work of Missouri College of Agriculture is Greatly Appreciated.

The Missouri College of Agriculture has recently demonstrated by a number of experiments the remarkably large benefits of spraying apple and peach orchards. W. H. Chandler of the Horticultural Department of the College recently had an experience in a sprayed apple orchard in Buchanan county, where the total number of barrels of number one apples was 76 per cent of the entire number grown, while in an unsprayed orchard adjoining it there were only 15 per cent of number one's. The number one apples were worth from \$2.25 to \$2.50 per barrel; the others only 30 to 50 cents per barrel.

In an orchard in the central part of Missouri containing 3,700 trees, the Agricultural College last year sprayed 100 trees, and the owner later stated that he picked more good apples off those one hundred trees than he did off the remaining 3,600.

In a 140-acre commercial orchard the College last year sprayed one acre of Jonathan apples. This sprayed acre produced more marketable apples than the remaining 139 acres, which were not sprayed.

In an interview, Prof. Chandler says: "You would be safe in estimating the net profits on a sprayed orchard at \$125, as against \$25 to \$50 on an unsprayed orchard. In fact, I do not think you would be exaggerating it if you put the total average income on an orchard as gain for spraying, for under average Missouri conditions, I seriously doubt if an unsprayed orchard can be made to pay expenses, except in sections where they have been in the fruit business only a short time."

In Missouri there are approximately 100,000 acres in apples. A gain of \$75 per acre in annual production means an increased income to apple growers of \$20,000,000 per year.

RECEIVING UNANIMOUS SUPPORT

Political Parties and Leaders Indorse Amendment No. 11.

Jefferson City, Mo., Sept. 29.—The proposed State University amendment to be voted on November 8 is being carried not only by the alumni of the institution, but by scores of prominent citizens throughout the state. A plank giving hearty indorsement to the plan was adopted as a part of the platforms of both the Democratic and Republican parties at Jefferson City in September. Among the leading members of both parties who have given their unqualified indorsement to the amendment are Governor Hadley, Hon. W. S. Cowherd, ex-Governor Folke, ex-Governor Francis, Hon. James A. Reed, Hon. Joseph Shannon and Hon. C. D. Morris.

An advisory committee of distinguished citizens from all parts of the state is enthusiastically assisting the alumni of the University in the campaign for the adoption of the amendment. The members of this committee are: Hon. Wm. S. Cowherd, Gov. Herbert S. Hadley, Hon. Cyrus P. Walbridge, ex-Gov. A. M. Dockery, Hon. R. B. Oliver, Hon. W. B. Dickey, Hon. Jehu H. Bothwell, Senator Frank W. McAllister, Hon. E. W. Stephens and Hon. E. E. E. McJannet.

Public school men of the state have formed an association in their behalf, known as "Amendment No. 11 Association," of which W. Salem Brown of Troy, Mo., is president. They are actively assisting in the work.

The amendment provides for a permanent and separate income to the State University of three-tenths of a mill per dollar of assessed valuation of the property in the state. Most of the progressive western states impose a much higher rate than this, but it is believed that the amount set apart from this source will by careful management enable Missouri University to maintain a creditable standing.

Amendment No. 11 is the last amendment on the ballot.

ELLIS SUPPORTS AMENDMENT.

Heartly Endorsement From Former Secretary of Agricultural Board.

George B. Ellis, editor of the Missouri Farmer and Breeder, and former secretary of the State Board of Agriculture, in speaking of Constitutional Amendment No. 11, to be voted on in November, which provides separate and definite support for the University of Missouri, says: "I consider the work of the Agricultural College worth more to the farmer of Missouri than the expense of the entire University. An increased yield of only one bushel of corn would add, at current prices, something like three and one-half million dollars to the farmers' profits every year. The experiments made by the Agricultural College show an average increase of about nine bushels of corn where the improved seed bred up by the College has been used. The work of the Agricultural College is developing a better variety of wheat for this state, and as soon as it reaches far enough to distribute the seed generally, it should result in increased yields of from five to ten bushels per acre, which would mean anywhere from ten to twenty million bushels of wheat annually, or, ten to twenty million dollars of wealth."

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well made, built for service, and yet light and ornamental. Has a cool handle.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

Falling Hair

Ayer's Hair Vigor promptly destroys the germs that cause falling hair. It nourishes the hair, restores them to health. The hair stops falling out, grows more rapidly.

Dandruff

Ayer's Hair Vigor just as promptly destroys the germs that cause dandruff. It removes every trace of dandruff itself, and keeps the scalp clean and in a healthy condition.

Does not Color the Hair

We wish you to positively and distinctly understand that Ayer's Hair Vigor does not affect the color of the hair, even to the slightest degree. Persons with the whitest or the lightest and most delicate blond hair may use it freely without having the hair made a shade darker.

Ingredients: Sulfur, Glycerin, Quinine, Sodium Chloride, Castile Soap, Alcohol, Water, Perfume.

Show this formula to your doctor. Ask him what he thinks of it.
